### tirocinante

#### LEIDEN UNIVERSITY

*Education, training,  
research and development*  
LEIDEN (NETHERLANDS)  
02/2022 - 02/2022

**Main activities and responsibilities:** I had the occasion to gain familiarity with the project via a systematic literature review about affective mimicry and physiological synchrony, from the more theoretical foundations to the technicalities of the preprocessing and data analysis. Second, I actively participated in the acquisitions of physiological data in a pionieristic dyadic study. In this context, I learnt how to apply physiological measures such as electrocardiogram (ECG), skin conductance (SC) and pupil dilation via portable eye-tracker glasses. Moreover, I learnt how to code behavioral videos of participants face via the software Open Face. I helped to acquire data during the ESOF 2022 conference gaining experience in the human-robot interaction field and in acquiring data with the general public.  
**Acquired skills and achieved objectives:** Group work abroad; technology skills of Python, R, Jasp, Unity; experimental research methodology  
Employed as: intern/trainee - undergraduate internship | Number of hours: 600

### volontario

#### SALVIAMO L'ORSO

*Environmental protection*  
PETTORANO SUL GIZIO (PE)  
08/2020 - 11/2020

**Main activities and responsibilities:** Development and implementation of projects aimed at safeguarding the Marsican brown bear and other wildlife species in the area. Interventions to facilitate human-wildlife coexistence (construction of electrified fences, awareness-raising interventions on the issue). Monitoring of species in the area by phototrapping and transects.  
**Acquired skills and achieved objectives:** I gained expertise in conservation, following transects, phototrapping and species identification. I managed communication interventions to raise awareness of the issue among local people and find mediation in the difficulties of coexistence. Time and space management. Working in teams with people from foreign countries and different backgrounds, I learned to use the diversity of the training path as an asset, an addition of different ideas and visions useful.
